PREFACE.

After four months of hard labor we are enabled to present to the citizens of Somerville and the general public a new edition of the Somerville Directory, No. 13 of the regular series. Having had many years' extended experience in the business of compiling and publishing Directories, we trust that the character of our work will be our best introduction. It will be our constant and earnest endeavor to give to our patrons and the general public a book that shall be a credit to us and an indispensable benefit to them. No facility which experience can suggest or money may procure will be spared. We trust and shall expect that the citizens of this promising city will give us their most generous support. Let it be remembered that our interests are identical. Any suggestions that may make the Directory more acceptable and useful will be gladly welcomed from whatever source.

Names in 1889 - - - -	13,755

Our thanks are extended to all who have in any way assisted in the prosecution of the present issue.

Respectfully,

MANUFACTURERS AND IMPORTERS OF

SURGICAL & DENTAL

INSTRUMENTS,

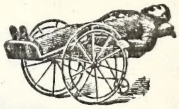

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:

INVALIDS' ROLLING

—AND—

BATH CHAIRS.

TRUSSES,

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. N. B.—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, etc.
Also, Crutches of various and most improved kinds; Syringes'
Rubber Urinals to wear on the person day or night,
for Males and Females; Galvanic Batteries,
Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf.

Together with many other articles for the use of the SICK and INVALIDS. Also the largest and best assortment of

Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURLTEFF, Boston, Mass. One Case Surgical Instruments and Atomizers

"The Committee have no hesitation in awarding for this superb exhibition the highest premium * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture,
GOLD MEDAL. (Signed), GILMAN KIMBALL, M. D. Chairman."

DIRECTIONS FOR GIVING AN ALARM.

When a fire is discovered, go to the nearest box to the fire, pull the hook down, and let go; by listening at the box a small bell will be heard, which indicates that the alarm is being given; if possible, wait at the box and direct the firemen to the fire.

Never sound an alarm for fire seen at a distance.

Never open the box except to give an alarm of fire.

Never give a second alarm for the same fire after the Department has arrived, without an order from the officer in command of the fire.

To announce the existance of a fire from Box 35, the bells will strike three blows, a pause, then five blows; thus, III — IIIII.

Signs giving information where keys to the signal boxes are kept are placed over each box, which citizens are requested to become familiar with, that there may be no delay in sounding an alarm.

Any person having a key who should change his residence or place of business will please rerurn the key to the nearest Fire Department building, or to a police officer.

Hose Companies Nos. 1, 2, 3, and 4 will answer first alarms from the following boxes, namely; —

Hose No. 1. Box 12, 112, 13, 113, 14, 15, 16, 17, 18, 19, 119, 21, 221, 23, 24, 25, 225, 26, 27, 31, 32, 33, 34, 35, 36, 37.

Hose No. 2, Box 112, 14, 16, 17, 18, 217. 228, 31, 32, 33, 34, 35, 36, 37, 38, 4, 41, 42, 43, 45, 46, 47, 48, 49.

Hose No. 3. Box 12, 112, 13, 113, 14, 15, 19, 119, 21, 217, 221, 23, 24, 25, 225, 26, 27, 227, 28, 228, 29, 31, 42, 46.

Hose No. 4. Box 27, 217, 227, 28, 228, 29, 35, 36, 37, 38, 4, 41, 42, 43, 45, 46, 47, 48, 49.

Engine Company No. 1 and Hook and Ladder Company No. 1 will answer all alarms.

Hose Companies not responding to a first alarm will answer to a second alarm from the same box, unless otherwise ordered, or first alarm from any other box, while that portion of the Department which has answered the alarm is in service.

Two blows on the fire alarm bells is the signal that the fire is extinguished and the Department dismissed.

No School.

Two rounds of 55, given under the direction of the Superintendent of Schools, is the signal that the next school session will be dispensed with, and will be struck only at the times herein mentioned, viz. : From May 1st to Oct. 1st, 7. 15, 8.15, 11.45 A.
